

AI-NATIVE SHORT-FORM CINEMA

MADTAPE

THE PLATFORM LAYER FOR AI-NATIVE SHORT-FORM CINEMA

The publishing home and community for AI-native cinema — with workflow transparency and direct creator support.

Nadeem Issaid • Founder

AI VIDEO IS EXPLODING. THE ECOSYSTEM AROUND IT IS **FRAGMENTED.**

Creators can generate cinematic clips, but they still lack:

A dedicated home for AI-native short films

A way to validate audience demand before
spending more on production

A platform built for episodes, pilots, and cinematic
IP

A monetization path beyond scattered ads, tips,
subs, and external platforms

THE PROBLEM ISN'T MAKING AI VIDEO.
IT'S TURNING AI VIDEO INTO **AUDIENCE-TESTED STORIES.**

THE MAKER

[CREATOR BURIED IN TOOLS + COMPUTE COSTS]

THE AUDIENCE

[AUDIENCE SCATTERED ACROSS FEEDS]

DON'T JUST GENERATE VIDEO. OWN THE FULL LOOP.

Current AI tools focus on output.

Madtape focuses on the full creator economy around AI-native storytelling.

PUBLISH. SHARE. FUND. GENERATE.

A publishing home and community for AI cinema. Generation is just one optional tool in the creator's kit — the core value is the audience, the curation, and the funding loop.

01 · The Core

PUBLISHING & DISCOVERY

A curated short-form AI cinema feed built for storytelling. Creators publish via YouTube links (beta) with full workflow transparency.

02 · The Moat

WORKFLOW SHARING

Every film carries its production metadata: tools used, step-by-step timeline, time and cost. Passive viewing becomes active learning.

03 · The Economy

AUDIENCE-BACKED SUPPORT

Direct tipping — 95% to the creator, 5% platform fee. Transparent, creator-first monetization beyond scattered ad revenue.

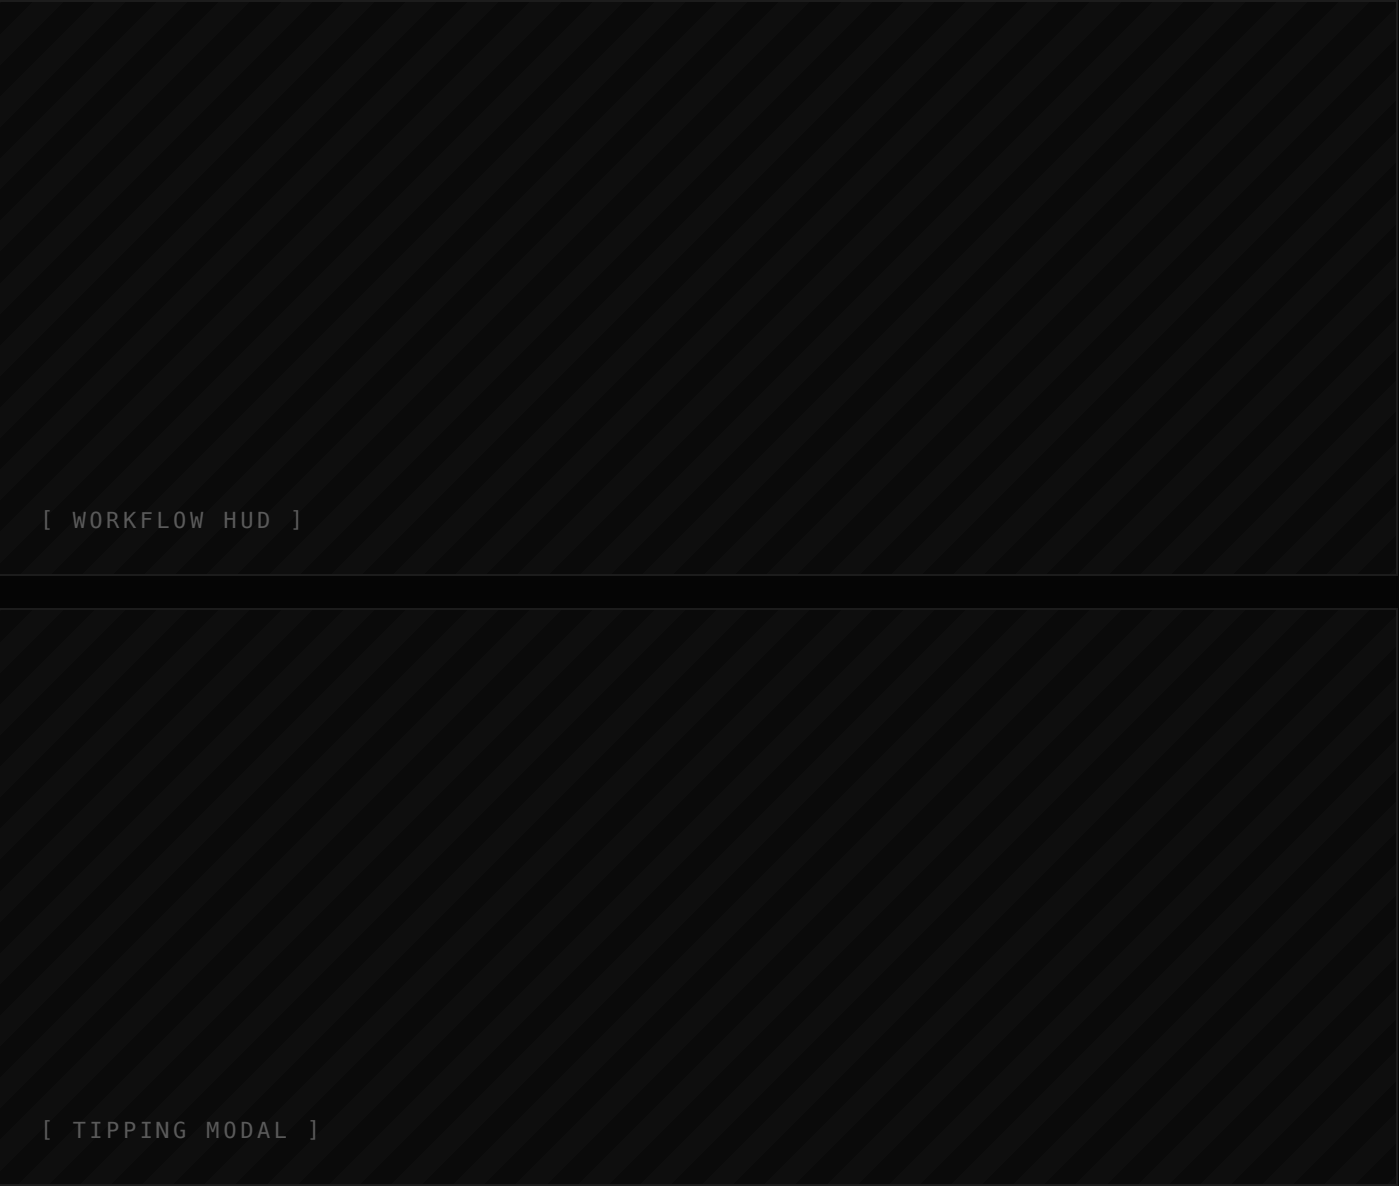

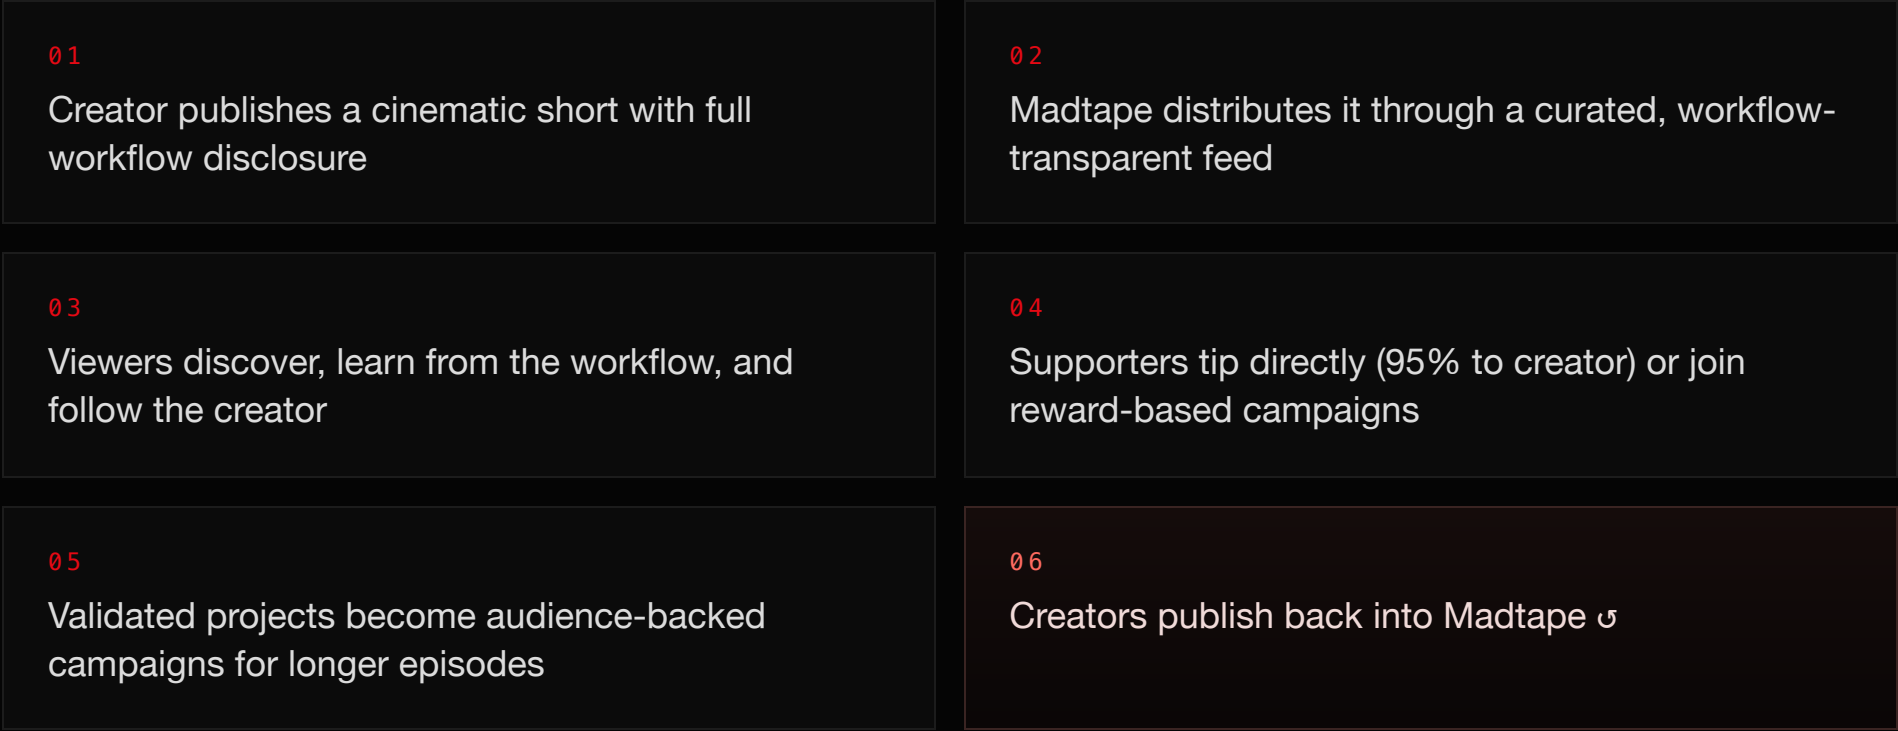

04 · The Toolkit

OPTIONAL GENERATION

AI video generation as an optional add-on — pay-as-you-go (\$0.10/video) or monthly packs. One tool in the kit, not the core.

MADTAPE TURNS AI CLIPS INTO **AUDIENCE-TESTED INTELLECTUAL PROPERTY.**

FROM IDEA TO AUDIENCE-BACKED PRODUCTION

MADTAPE TURNS AI CLIPS INTO **AUDIENCE-TESTED IP.**

THREE REVENUE ENGINES, LAUNCHED IN PHASES

Phase 1 · Publishing

CREATOR SUBSCRIPTIONS

Free	\$0/mo
5 films/mo · workflows · community	
Creator	\$15/mo
20 films/mo · analytics · badge	
Pro	\$39/mo
unlimited · challenge priority · support	

Phase 2 · Direct Support

AUDIENCE TIPPING

Direct creator support with transparent, clearly disclosed fees.

95% TO CREATOR

5% platform fee — clearly disclosed

Phase 3 · Add-on Toolkit

OPTIONAL GENERATION

Pay-as-you-go	\$0.10/video
per 5-second render	
Creator Pack	\$29/mo
50 videos/mo · up to 1080p	
Studio Pack	\$79/mo
200 videos/mo · Seedance 2.0 · API	

CORE PRINCIPLE No compute traps, no expensive credit packs. We succeed when creators succeed.

SUSTAINABLE, CREATOR-FIRST ECONOMICS

01 · SaaS

HIGH-MARGIN SUBSCRIPTIONS

Target 10% to \$15/mo, 3% to \$39/mo, on Firebase / Stripe infrastructure.

~85% GROSS MARGIN

02 · Marketplace

TIPPING FEES

A flat 5% fee on all audience tips. Zero compute cost — pure margin that scales with creator success.

5% PURE MARGIN

03 · Pass-Through

GENERATION ADD-ONS

Optional packs priced above raw API cost. No unlimited-compute traps — pay for exactly what you render.

30-40% MARGIN

WHY NOW

01

QUALITY CROSSED THE CINEMATIC THRESHOLD

AI video now looks like film, not novelty.

02

CREATORS ARE MOVING FROM CLIPS TO IP

Stories, episodes, and series — not one-offs.

03

NO FOCUSED CATEGORY LEADER EXISTS YET

Audiences already watch short-form video, but AI-native cinema has no focused category leader.

THE PIECES ALREADY EXIST.
THE CATEGORY IS STILL **FRAGMENTED.**

AI VIDEO GENERATION	Runway, Pika, LTX, Dreamina, Seedance-style providers
CREATOR MONETIZATION	YouTube, Patreon, TikTok, Substack-style subscriptions
FILM CROWDFUNDING	Kickstarter, Seed&Spark, campaign platforms
STREAMING & SHORT-FORM	YouTube, TikTok, Tubi, Vimeo, niche media
AI STORYTELLING	Emerging platforms, no clear category leader

But creators still move between disconnected tools, feeds, payment systems, and campaign pages.

THE UNIQUE DIFFERENTIATOR

WORKFLOW
TRANSPARENCY.

Runway and Pika are tools. YouTube and Patreon are distribution. Madtape is the only platform that mandates workflow disclosure — tools, steps, time, and cost.

We host not just the videos, but the knowledge of how they were made — an uncopyable learning community.

THE PRODUCTION & DISTRIBUTION LAYER FOR AI-NATIVE CINEMA

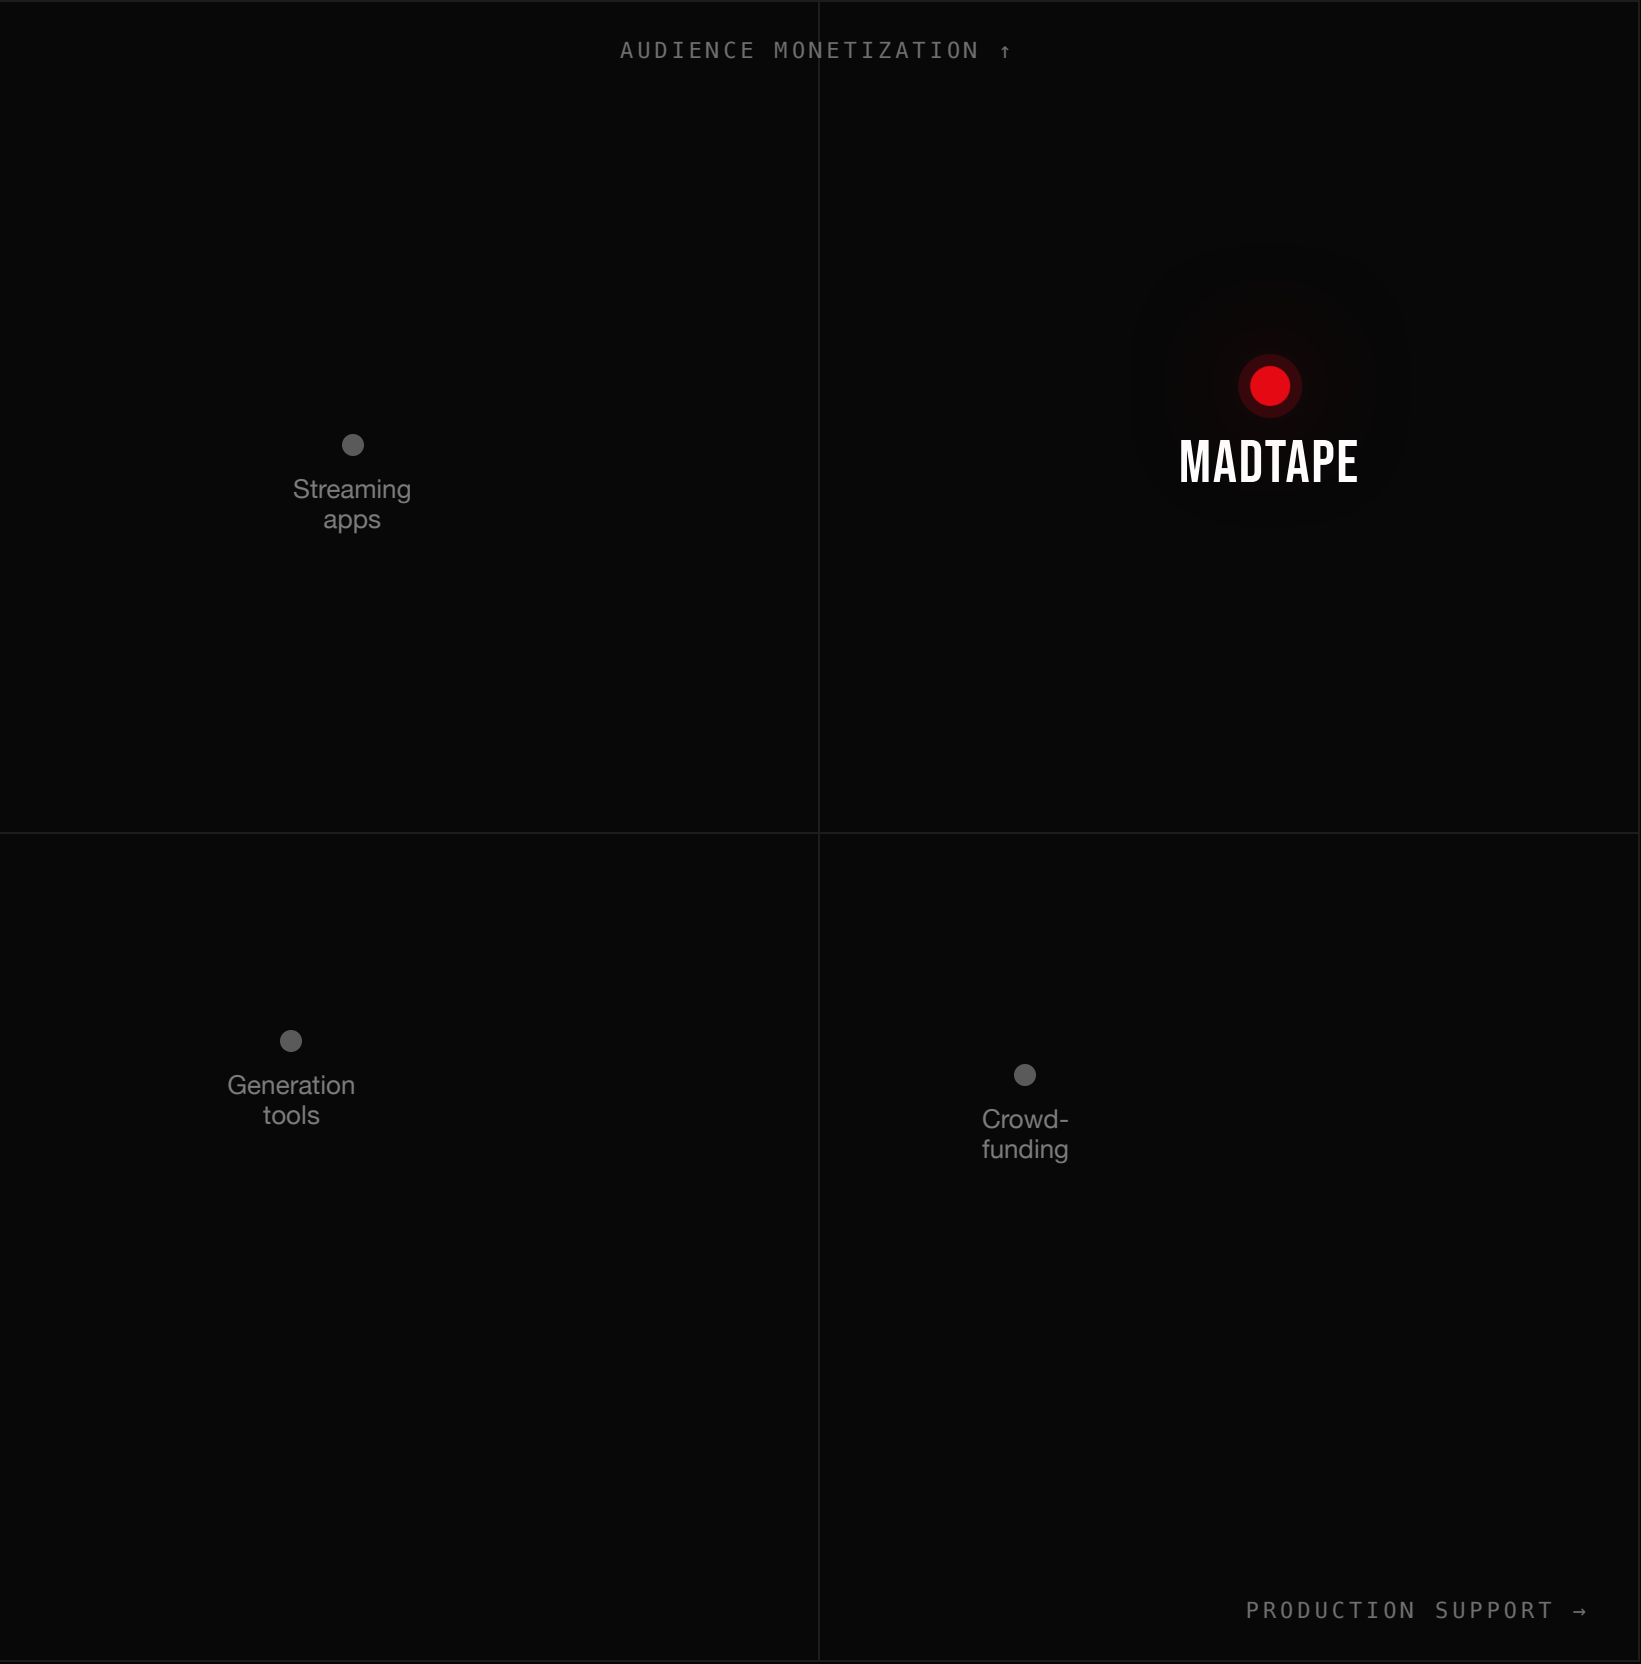

Not just a generation tool.

Not just a streaming platform.

Not just crowdfunding.

Madtape connects generation, discovery, monetization, and audience-backed production around one focused niche: **AI-native cinematic shorts and episodes.**

NOT HORIZONTAL AI VIDEO. VERTICAL AI CINEMA.

LIVE NOW. VALIDATION NEXT.

CURRENT STATUS

- Live beta at madtape.com — real Firebase backend & security rules
- Workflow-transparent publishing live (tools, steps, time, cost)
- 95 / 5 direct tipping model implemented
- Founder actively producing AI-native cinematic IP

90-DAY VALIDATION TARGETS

- **20** creators onboarded to Free / Creator tiers
- **50** shorts with 100% complete workflow disclosures
- **1,000** registered viewers in the community feed
- First creator challenge pool executed
- First tipping campaigns — **\$500** distributed (95% to creators)
- Workflow adoption — **80%** of uploads include full metadata

WHAT WE MUST PROVE

- Creators will share their workflows for community goodwill
- Viewers will value workflow transparency and learn from it
- Audiences will tip directly using the 95 / 5 model
- \$15 / \$39 tiers retain better than expensive compute plans

WHY START IT @KBC

- 01 Innovative — AI-native cinema as a new creator category
- 02 Scalable — software platform, global creator & viewer reach
- 03 Founder-led — creative, technical & product vision
- 04 Early but testable — clear 90-day validation plan
- 05 Belgium-based, built for a global AI creator economy

WHAT @KBC HELPS US VALIDATE

- Pricing & tipping economics
- Creator acquisition & retention
- Reward-based campaign structure
- Belgian / EU legal path for crowdfunding mechanics
- Media, creator & investor introductions
- First European creator cohort
