

AI-NATIVE SHORT-FORM CINEMA

MADTAPE

THE PLATFORM LAYER FOR AI-NATIVE SHORT-FORM CINEMA

Generate, publish, discover, and fund cinematic AI stories in one platform.

Nadeem Issaid • Founder

AI VIDEO IS EXPLODING. THE ECOSYSTEM AROUND IT IS **FRAGMENTED.**

Creators can generate cinematic clips, but they still lack:

A dedicated home for AI-native short films

A way to validate audience demand before
spending more on production

A platform built for episodes, pilots, and cinematic
IP

A monetization path beyond scattered ads, tips,
subs, and external platforms

THE PROBLEM ISN'T MAKING AI VIDEO.
IT'S TURNING AI VIDEO INTO **AUDIENCE-TESTED STORIES.**

THE MAKER

[CREATOR BURIED IN TOOLS + COMPUTE COSTS]

THE AUDIENCE

[AUDIENCE SCATTERED ACROSS FEEDS]

DON'T JUST GENERATE VIDEO. OWN THE FULL LOOP.

Current AI tools focus on output.

Madtape focuses on the full creator economy around AI-native storytelling.

ONE PLATFORM. GENERATE. STREAM. FUND.

Creators make cinematic AI shorts, audiences discover new stories, and promising projects receive reward-based audience support.

01

GENERATION STUDIO

AI video generation, extension, upscaling, and video-to-video workflows.

02

STREAMING & DISCOVERY

A curated short-form AI cinema feed built for storytelling — not random social posting.

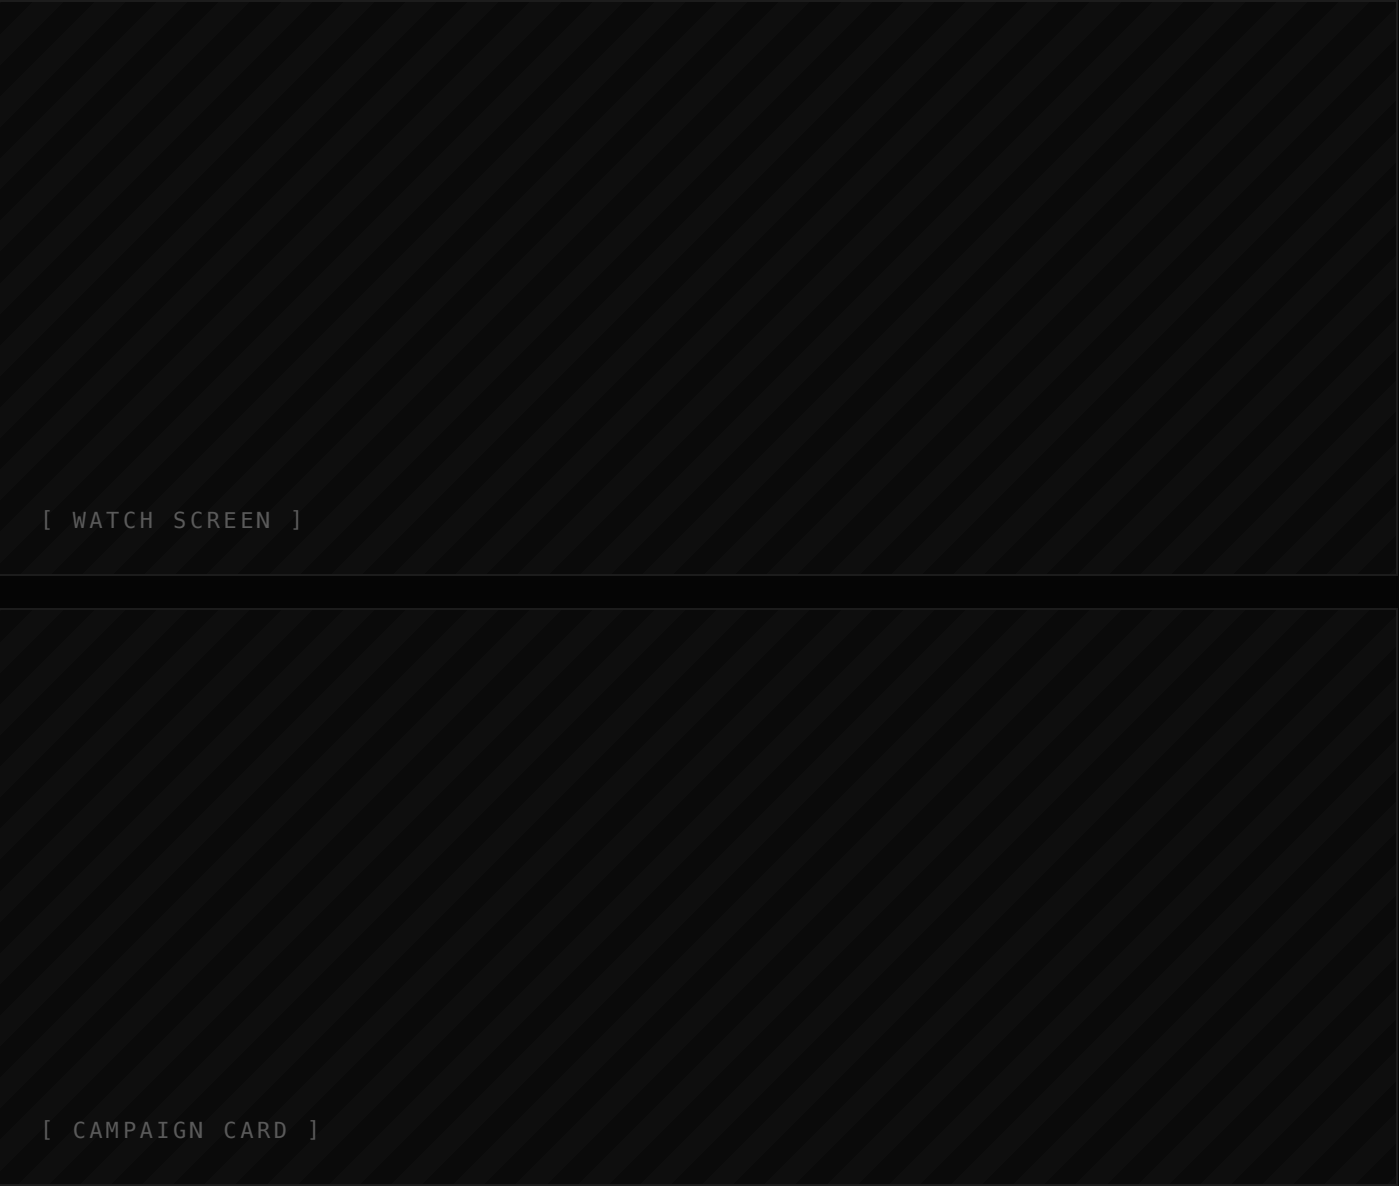

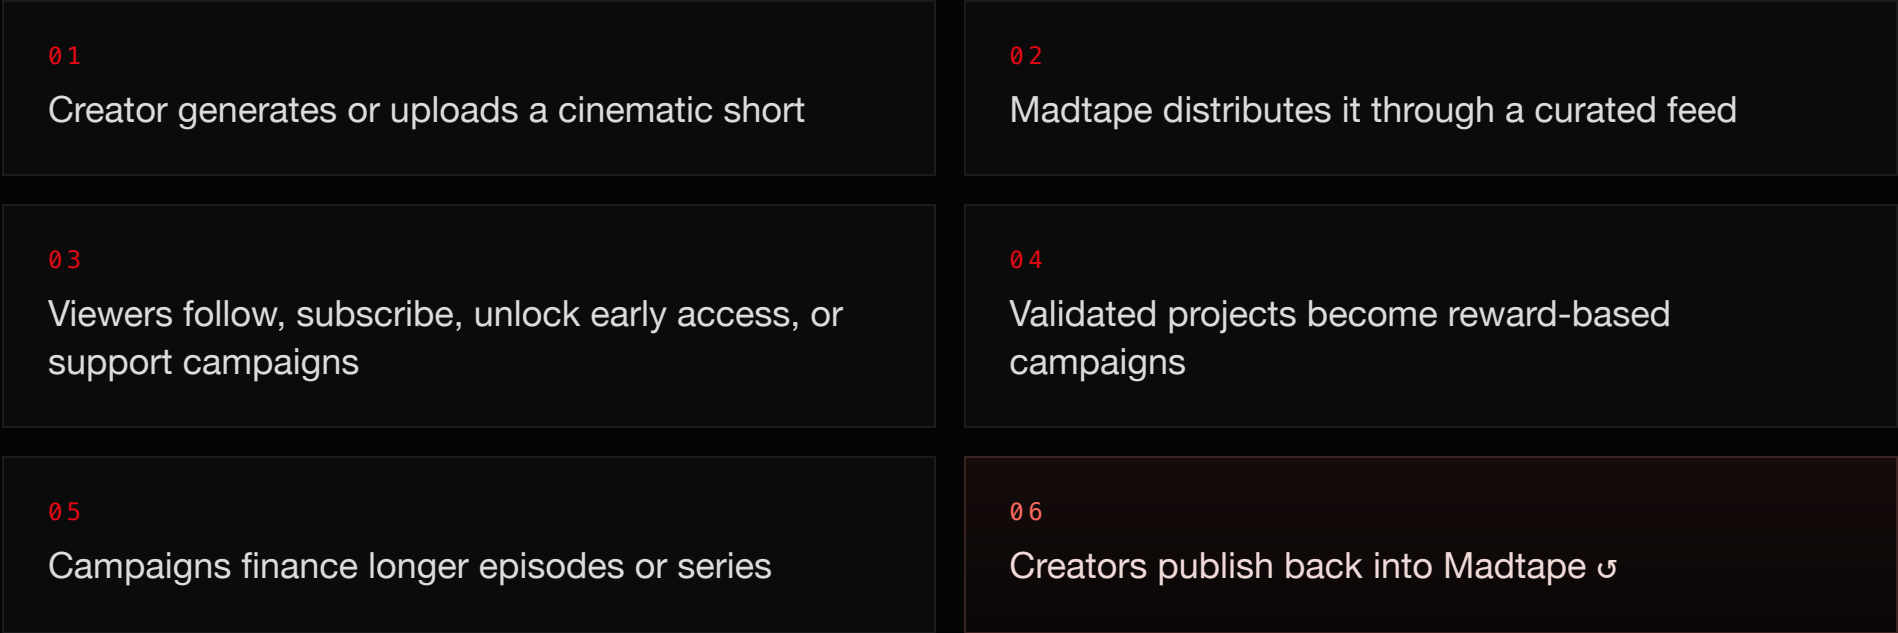

03

AUDIENCE-BACKED CAMPAIGNS

Supporters help creators validate and finance episodes, pilots, and series through rewards, early access, and perks.

MADTAPE TURNS AI CLIPS INTO **AUDIENCE-TESTED INTELLECTUAL PROPERTY.**

FROM IDEA TO AUDIENCE-BACKED PRODUCTION

MADTAPE TURNS AI CLIPS INTO **AUDIENCE-TESTED IP.**

THREE REVENUE ENGINES, LAUNCHED IN PHASES

Phase 1 · Creator Plans

COMPUTE-SAFE CREATOR PLANS

Bounded generation through Madness Credits — not "unlimited video."

Creator Starter	FIXED ALLOWANCE
Creator Pro	HIGHER ALLOWANCE
Studio	TEAM CAPACITY

Phase 2 · Usage Credits

MADNESS CREDITS

Usage-based credits for generation, extension, upscale, retry, and video-to-video workflows.

PAY FOR WHAT YOU RENDER

Phase 3 · Platform

PLATFORM REVENUE

- Campaign platform fees
- Premium viewer subscriptions
- Ad-free viewing
- Creator channel subscriptions
- Brand-sponsored challenge pools

FIRST PRIORITY Creator-side revenue — AI creators already have an urgent production cost problem.

PRICING BUILT ON COST CONTROL

GENERATION TYPE	PROVIDER COST	PRICING RULE
Fast 720p · text-to-video · 5s	\$0.60	Base compute unit
Standard 720p · text-to-video · 5s	\$0.76	Higher credit burn
Standard 1080p · text-to-video · 5s	\$1.87	Premium generation
Fast 720p · video-to-video · 5s	\$1.43	Advanced workflow
Standard 1080p · video-to-video · 5s	\$4.57	High-cost workflow

Provider costs are estimates based on current external generation pricing, updated continuously.

KEY PRINCIPLE

NO
UNLIMITED
COMPUTE.

We sell cinematic output through controlled compute allowances — protecting margin, preventing abuse, and keeping subscriptions sustainable.

Every workflow burns credits according to real compute cost.

WHY NOW

01

QUALITY CROSSED THE CINEMATIC THRESHOLD

AI video now looks like film, not novelty.

02

CREATORS ARE MOVING FROM CLIPS TO IP

Stories, episodes, and series — not one-offs.

03

NO FOCUSED CATEGORY LEADER EXISTS YET

Audiences already watch short-form video, but AI-native cinema has no focused category leader.

THE PIECES ALREADY EXIST. THE CATEGORY IS STILL **FRAGMENTED.**

AI VIDEO GENERATION	Runway, Pika, LTX, Dreamina, Seedance-style providers
CREATOR MONETIZATION	YouTube, Patreon, TikTok, Substack-style subscriptions
FILM CROWDFUNDING	Kickstarter, Seed&Spark, campaign platforms
STREAMING & SHORT-FORM	YouTube, TikTok, Tubi, Vimeo, niche media
AI STORYTELLING	Emerging platforms, no clear category leader

But creators still move between disconnected tools, feeds, payment systems, and campaign pages.

THE DIFFERENCE

MADTAPE ISN'T ANOTHER TOOL.

It's the dedicated platform layer for AI-native short-form cinema — connecting generation, discovery, monetization, and audience-backed production into one focused loop.

THE PRODUCTION & DISTRIBUTION LAYER FOR AI-NATIVE CINEMA

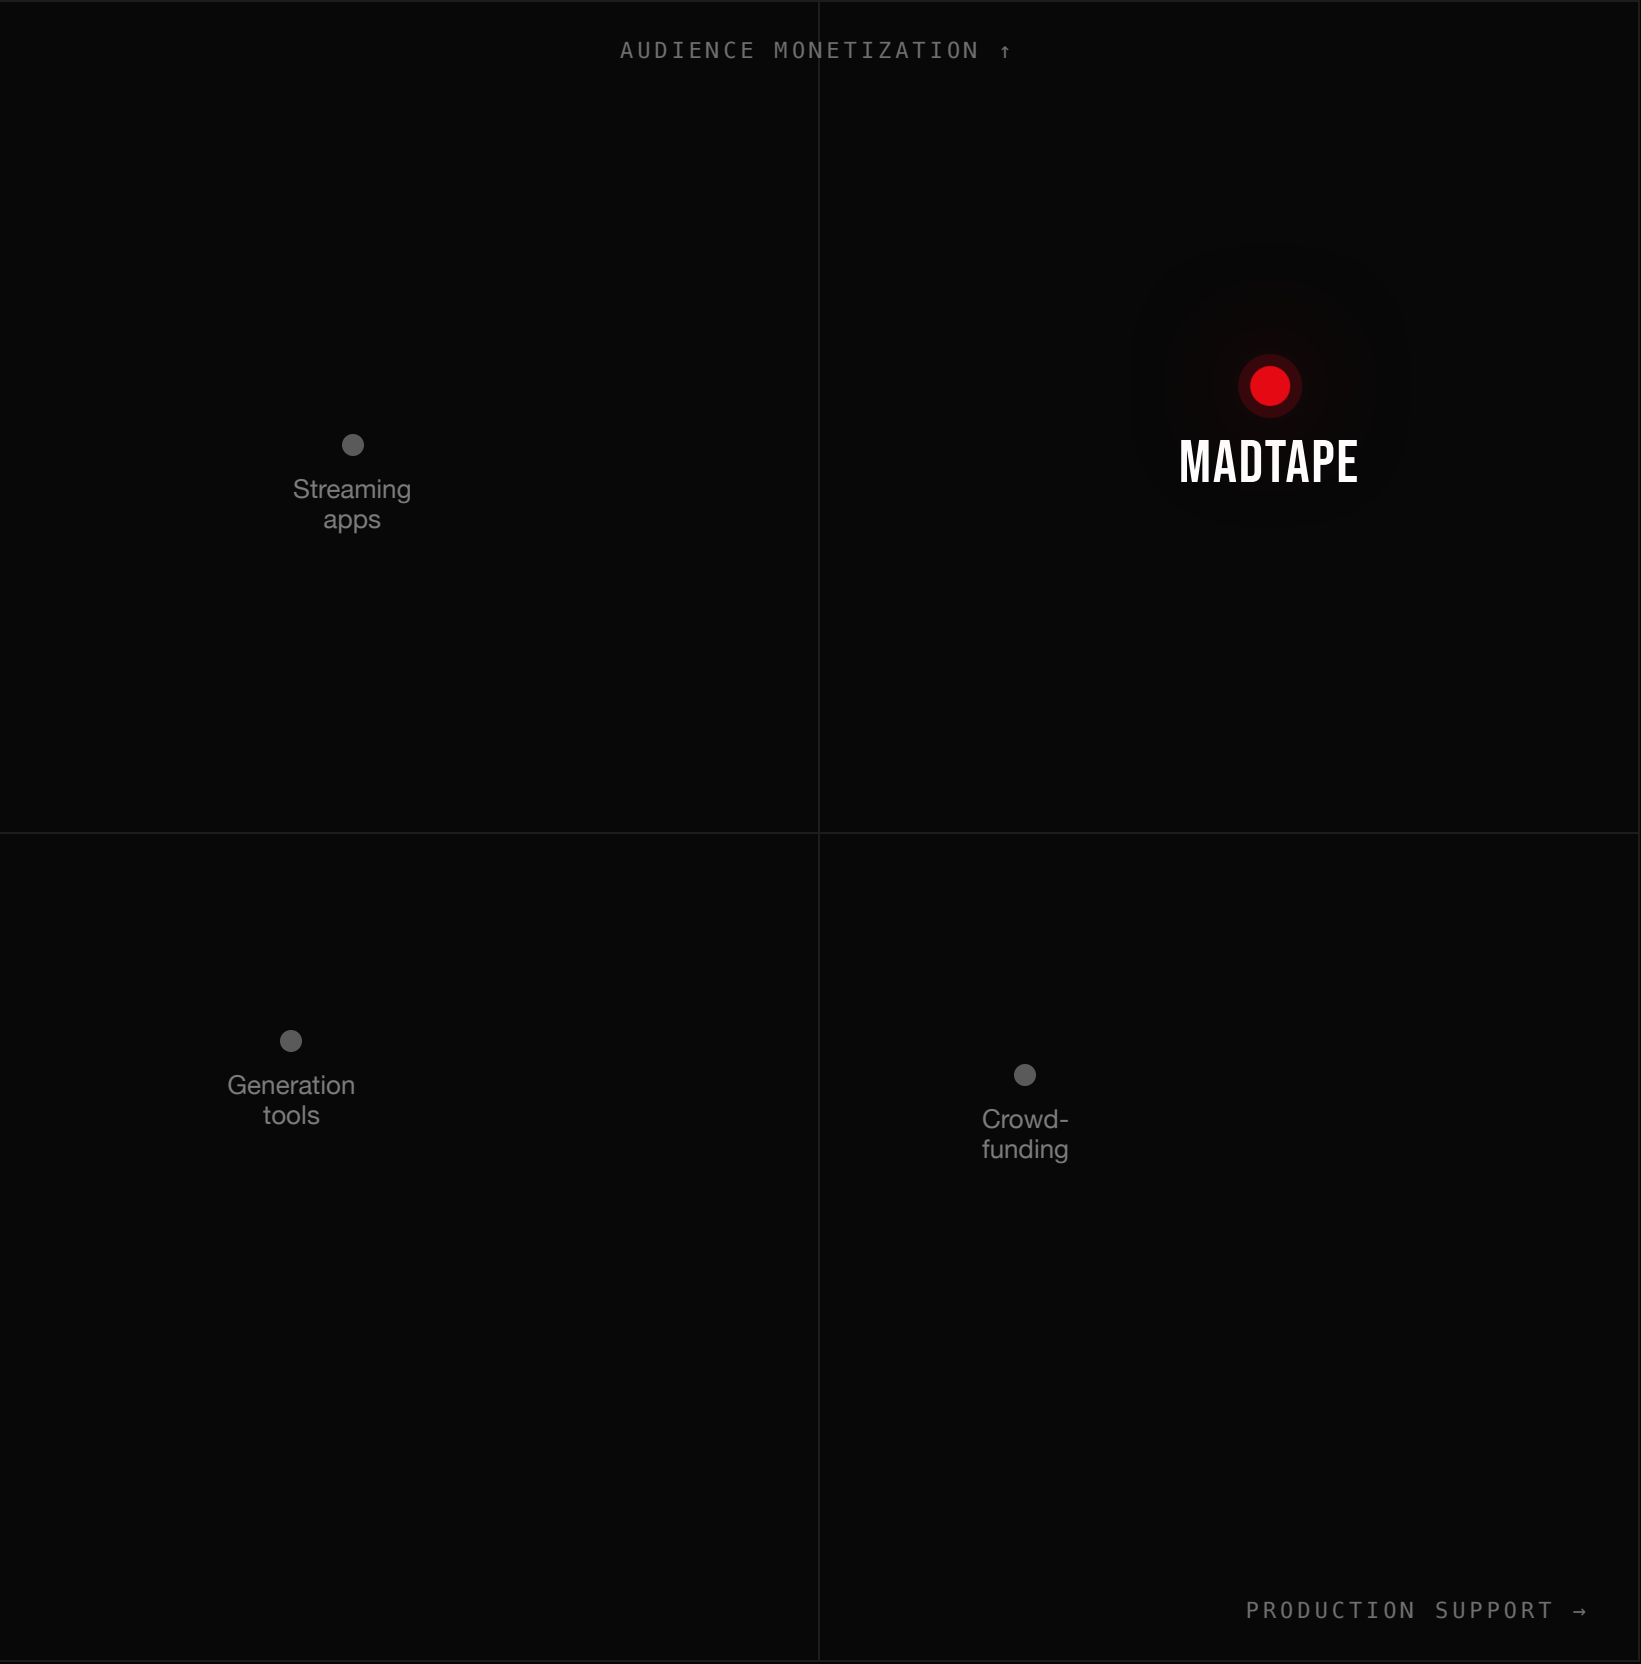

Not just a generation tool.

Not just a streaming platform.

Not just crowdfunding.

Madtape connects generation, discovery, monetization, and audience-backed production around one focused niche: **AI-native cinematic shorts and episodes.**

NOT HORIZONTAL AI VIDEO. VERTICAL AI CINEMA.

LIVE NOW. VALIDATION NEXT.

CURRENT STATUS

- Platform live at madtape.com
- Product direction defined: generation, streaming, profiles, uploads, campaigns
- Founder actively producing AI-native cinematic IP
- First use case ready to test as proof-of-platform

90-DAY VALIDATION TARGETS

- **20** AI creators onboarded
- **50** published AI shorts or episodes
- **1,000** registered viewers
- First creator challenge pool
- First paid creator subscriptions
- First reward-based campaign test

WHAT WE MUST PROVE

- Creators will publish on Madtape, not only YouTube / TikTok
- Viewers will register and follow projects
- Supporters will pay for perks or early access
- Paid creators can generate without destroying compute margins

WHY START IT @KBC

- 01 Innovative — AI-native cinema as a new creator category
- 02 Scalable — software platform, global creator & viewer reach
- 03 Founder-led — creative, technical & product vision
- 04 Early but testable — clear 90-day validation plan
- 05 Belgium-based, built for a global AI creator economy

WHAT @KBC HELPS US VALIDATE

- Pricing & credit economics
- Creator acquisition & retention
- Reward-based campaign structure
- Belgian / EU legal path for crowdfunding mechanics
- Media, creator & investor introductions
- First European creator cohort

MADTAPE

THE AI-NATIVE HOME FOR SHORT-FORM CINEMA.
