

EXECUTIVE SUMMARY

UX & Digital Transformation Leader with 18+ years of experience delivering user-centered digital products and services across technology, finance, healthcare, government, and media. Expert in UX strategy, product thinking, systems design, information architecture, user research, and visual storytelling — with proven capabilities in cross-functional leadership, stakeholder management, and organisational digital innovation.

Rare interdisciplinary profile spanning UX, AI integration, creative direction, and public-sector digital transformation — uniquely positioned to lead enterprise and government digital initiatives across Europe and international consulting markets. Consistently translates complex organisational challenges into scalable, high-impact digital solutions aligned to measurable business outcomes.

CORE EXPERTISE

UX Strategy & Leadership End-to-end user-centered design leadership from discovery through delivery. Translates user insight into scalable product strategy.	Digital Transformation Modernises organisations through technology adoption, process redesign, and digital communication infrastructure at scale.
Product & Program Management Leads multi-disciplinary teams through planning, coordination, and delivery of digital products with quality and measurable outcomes.	AI & Data-Driven Design Integrates AI to streamline workflows and decision-making. Uses A/B testing, analytics, and user feedback to optimise performance.
User Research & Policy Analysis Applies analytical thinking to evaluate data, policy frameworks, and user trends — supporting evidence-based strategic decisions.	Design Systems & Accessibility Builds scalable, WCAG-compliant design systems ensuring consistency, accessibility, and quality across complex product suites.
Information Architecture Structures complex information into intuitive frameworks that enhance navigation, clarity, and comprehension across diverse users.	Creative & Art Direction Transforms abstract ideas into powerful visual narratives. Oversees creative output for clarity, consistency, and high design quality.
Stakeholder Management Aligns executive, technical, and user perspectives. Facilitates workshops and presents strategic recommendations to senior leadership.	Cross-functional Leadership Inspires and guides diverse teams across design, engineering, research, and business — bridging disciplines toward shared outcomes.

2024 — 2025

Mission of Palestine
Belgium, Luxembourg & EU
Brussels, Belgium

Head of Digital Transformation

IT Department · Diplomatic Mission

- Directed full-scale IT modernisation of a diplomatic mission, leading infrastructure overhaul and digital communication transformation across Belgium, Luxembourg, and EU institutions.
- Architected security-compliant digital workflows, improving operational efficiency and inter-departmental communication across mission branches.
- Implemented accessibility-first digital solutions and governance frameworks aligned with EU digital standards.
- Designed and deployed internal systems supporting mission security, document management, and stakeholder engagement.

2016 — 2024

ABCTeam
UX Consultancy
Regional & International

Senior User Experience Consultant

UX Strategy, Research & Product Design

- Led end-to-end UX strategy and design for clients across healthcare, logistics, civic innovation, e-commerce, and sustainability sectors.
- Directed UX research and prototyping for Medico (Sweden) and Skidpick, achieving measurable improvements in usability and task completion.
- Designed and launched Sholabis, a circular-fashion sustainability platform, from research through delivery.
- Developed digital ecosystems for Augusta Victoria Hospital and Palestinian Red Crescent Society — high-stakes healthcare environments demanding accessibility and trust.
- Coordinated cross-functional design-to-development handoffs for Nabeeh (handyman platform) and MEB (media & culture), reducing iteration cycles and aligning delivery to business KPIs.

2009 — 2023

Creative Technologies
(Creative Group)
Palestine & Europe

Co-Founder & Chief Executive Officer

Creative Technology, Design & Digital Strategy

- Founded and scaled a multi-studio creative technology company spanning design, print production, and digital strategy across Palestine and European markets.
- Supervised production of 18M+ printed materials over three years; built and led an operational team across multiple studios.
- Founded AI Mustawda' — a platform catalysing artists, media producers, and creative startups across the MENA region.
- Directed branding, digital strategy, and creative output for enterprise and government clients across the Middle East and Europe.
- Built strategic partnerships across the EU and regional markets, establishing the company as a leading creative authority.

2007 — 2009

United Securities
(Masrouji Group)
Palestine

Marketing Manager

Marketing & Brand Strategy

- Led marketing strategy and brand communications for a regional financial services and investment firm.
- Directed client engagement initiatives, campaign design, and marketing operations across multiple channels.

2002 — 2007

Hadara Technologies
(Paltel Group)
Palestine

Marketing & Content Officer

Digital Content & Campaign Production

- Managed digital content strategy and production for Palestine's first internet service provider, pioneering early digital media in the region.
- Founded and scaled Onlinegames.ps to 18M+ monthly visits — establishing a leading digital entertainment destination.
- Directed campaign design, content production pipelines, and strategic partner coordination across editorial and marketing functions.

Sbitany — E-Commerce UX & Digital Transformation Audit

UX CONSULTING

Palestine's largest consumer-electronics & home-appliance retail group · Multi-million monthly visits · Nationwide retail, e-commerce & mobile platforms

CHALLENGE & ROLE

Led UX and digital transformation for Sbitany's e-commerce website and mobile app — high-traffic platforms requiring comprehensive usability, accessibility, and architecture improvements aligned with international best practices.

KEY OUTCOMES

- Identified and documented 183+ functional, usability, and accessibility issues with engineering teams
- Delivered comprehensive UX research report with evidence-based modernisation roadmap
- Defined UX guidelines, standardised patterns, and future optimisation opportunities

RESEARCH METHODS

- 4-month structured UX & accessibility audit across user flows, IA, and interface consistency
- User surveys, card-sorting exercises, and multi-department stakeholder interviews
- Heuristic evaluation against WCAG and international UX standards

BUSINESS IMPACT

Contributed directly to Sbitany's digital transformation roadmap — positioning the organisation for improved conversion, accessibility compliance, and long-term digital competitiveness across its retail network.
